

I would like to outline my roles and responsibilities as a developer of BIL.

**Requirement Gathering:**

- I've engaged with an SMS system provider to obtain the necessary API support for our SMS system development

**System Development:**

- designing the UI for the SMS System.
- Developing the website for the SMS system

**Learning phase:**

- I've been gaining insights from senior colleagues about the system they developed.

Thank you,

Ratnay Rana

Development Officer (IT)
